Reference: EUSEM 2017 Congress – Letter of recommendation

Dear Peter,

Allow me to extend our warmest thanks for a very successful congress in Athens from 23 – 27 September 2017 at Megaron International Conference Center.

We followed their suggestion and enquired with their recommended suppliers for quotations. Vision Ltd. was included in the list we received. From the very start, even before the planning stage of the exhibition, your professional support and efficiency stood out. It was great to have Vision's advice in various aspects from exhibition & room layout to signage.

Our industrial partners were fully satisfied with your services, and so were the congress organisers. We would like to extend our heartfelt congratulations to your whole team of booth builders, electricians, designers, technicians, hostesses... You all did an amazing job!!

We hope that we will have the opportunity to work with you again in Athens or elsewhere.

Sincerely yours,
